Tools: Source Tree, Bit Bucket, Beyond compare, Visual Studio Code, Eclipse IDE, Soap UI, Postman, Jira, Confluence

Professional Experience

Capgemini – SAP Commerce Lead (APR 2018 – Present)

Project Description:	**Rexel**
	Rexel is involved in ecommerce business having its web shop developed in hybris and angular technologies. It has 22 web shops across the globe.
Technologies:	SAP Commerce, Spring Franework, MySQL, Tomcat, REST Webservices, SOAP, Tibco
Role:	SAP Commerce Lead
Responsibilities:	- Working as a lead for sap commerce development - I've actively participated in business requirement analysis and collaborated with technical architects to shape solutions aligned with organizational goals and then provide grooming to developers. - As part of the core development team, I've been entrusted with leading and guiding teammates through over 100+ sprints, championing a collaborative spirit for success. - I've had the privilege to engage in CX Sprints, OMS Sprints, Production Support, Mobile APIs, and Integration projects. - I use my skills in research and development to explore new areas in the world of software development that haven't been explored before and identify how they can add value to projects. - Actively participate in the analysis of production issue - My journey into the SAP HYBRIS universe has been enriching. I've delved into various aspects of the platform, combining OOTB features with customization to deliver tailored solutions. As a SAP Commerce developer, I've explored B2B as well as B2C accelerator functionalities.
